

 febi 24316

To Fit:  
BMW 3 Series, Z3 E36, Z4 E85 models

EN

## Strut Mounting

febi 24316 has improved upon the internal design and its material. The modified febi strut mounting also has an alignment pin which allows the mounting to fit into the Z 4 models.

However, when installing this part to E 36 or Z 3 models, please note that the alignment pin in the new support mounting must also be removed before installation!
